## Bodenschichten

Jeder Boden besteht aus einzelnen Schichten, den sogenannten Bodenhorizonten. Bezeichne die einzelnen Horizonte und schreibe dazu, was für diese typisch ist bzw. welche Vorgänge dort ablaufen!

The diagram illustrates the soil profile with a photograph on the right and a grid for labeling on the left. The photograph shows a cross-section of soil with a cornfield on top. The soil is divided into several distinct layers, each connected to a circle in the grid. The grid consists of 18 rows and 4 columns. The first three rows are empty. The next three rows are connected to a circle. The next three rows are connected to a circle. The next three rows are connected to a circle. The last three rows are connected to a circle. The circles are arranged in a vertical line, and the grid lines are connected to them by thin lines.
